

FIND RICHES—OR DOOM!

Despite what you may have heard in recent years, the realm of mankind **remains** narrow and constricted!

While the forces of chaos press in, now is the perfect time to make **enormous piles of gold** in the desperate, kill-or-be-killed territory of **THE BORDERLANDS!**

GUILDHOUSE OF THE HYBORIAN IMPERIAL CAPITAL

BUT... NEW SYSTEM :(
The exciting new *Shadowdark* system, which just recently won... basically every award, has the simplicity of early RPGs but is close enough to 5e that you don't have to be afraid!

Roll high, advantage/

NOT YOUR GRANDDAD'S BORDERLANDS

With bizarre deities, faction-based play, and an anything-goes West Marches style setup, combined with tweaks, traps, and surprises, you'll be in mortal peril even if you *think* you know your way around **the borderlands!**

BE A GOBLIN I GUESS?!?!
Everyone always complains that old school style games leave you stuck as a human, or maybe an elf or dwarf.

We hear you!

You can be a human, elf,
OR dwarf!

Also, **you can be a goblin!** Your reaction rolls in town will be awful! You will be subject to both human-law and ***goblin-law!*** But you'll have the satisfaction of knowing you made things *needlessly difficult for yourself!* **Respect!**

PLAY THE WORLD, NOT THE STATLINE

The answer is not found on your character sheet; it's a good thing too, because with **3d6 down the line**, chances are you have two hit points and your 'best' stat is an 11.

That's okay, though! The thrill is in surviving, and if not, character creation takes like five minutes.
